## PLATFORMS SUMMARY

Platforms I have chosen to promote my blog

Facebook- It is the largest social media network with more than 1.7 Billion monthly active users worldwide, so it helps in sharing the content and awareness among a huge network to reach the targeted audience.

LinkedIn- It is mainly used for professional networking, it showcases our professional skills and interests and helps in building connections with the people of the same interests and the same field.

---

Instagram- Is a social networking application where we posts photos and videos, connect with friends. About 59% of the internet users between the ages of 18 and 29 uses instagram so it's easy to create awareness and reach targeted audience there.

## **EXTRA CREDIT: ANALYSIS**

What would you do differently based on your results?

I will try to connect with more people of the same interests on social media platforms to increase my visibility.

What other topics might you feature on your blog and in social?

I will be sharing my experience with Udacity once I am done with my Nanodegree Program.
